

Marker

Create quick-notes which comply with internal branding standards

Dependencies:

- ruby installed
- **Gems:**
 - commonmarker
 - github-markup

Install Missing Gems:

- run `bundle` from the root 'marker' folder

Usage:

1. Copy *.md files to this directory (or copy 'marker.rb' and 'lib' folder to *.md files)
2. `ruby marker.rb <file_name>.md`
3. `chrome <file_name>.html`
4. File > Print > 'Save as PDF'
